### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and /or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issued fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Charles M. Marmelstein (Reg. No. 25,895) on 05-12-05

The following changes have been made to the subject application:

#### *In the Abstract*

Delete "conventionally,...the minimum needed circuit elements" on lines 1 to 4.

Replace "The voltage detection circuit" on line 4 with "A voltage detection circuit".

#### *In the claims:*

##### ***Claim 4:***

Line 2; replace " the predetermined voltage" with --the predetermined level--.

##### ***Claim 5:***

Line 2; replace " the predetermined voltage" with --the predetermined level--.

##### ***Claim 10:***

Line 2; replace " the predetermined voltage" with --the predetermined level--.

##### ***Claims 2- 6 and 8-11 :***

Line 1; replace " as claimed" with --as claimed--.

##### ***Claim 14:***

Line 4; replace " the predetermined voltage" with --the predetermined level--.

##### ***Claim 15:***

Art Unit: 2816

Line 4; replace " the predetermined voltage" with --the predetermined level--.

***Reason for Allowance***

The following is an examiner's statement of reasons for allowance:

The prior art reference of records (US Pat. 6,630,858), figure 3, includes all the limitations of claims 1,7 and 13 except for the limitation that there is a resistor connecting the base with the emitter of the second transistor as called for in claims 1,7 and 13. References (US Pat. 5,926,062, 5,059,890, 6,661,258) show transistors having resistors connecting between the bases and the emitters. But there is no motivation to implement a resistor of the above references between the base and the emitter of transistor (BP1) or (BP2) in figure 3. Therefore, claims 1-15 are presently allowed.

***Conclusion***
